

Timberview Middle School

6th Grade In-Person School Supply List

2020-2021

Due to the COVID-19 related health and safety recommendations, students, teachers and/or staff members may not share school supplies. It may be necessary to frequently replenish supplies during the school year. When students return to in-person learning they will need to be prepared each day with the necessary supplies since lockers will not be used/assigned to start the school year.

Students should bring a personal learning device for instructional purposes at school. Personal learning devices will be permitted in classrooms and integrated into instructional practices when appropriate and feasible through the use of Schoology (20 Learn). Should students need to be quarantined or the school was to return to an online learning environment due to a COVID-19 outbreak, the familiarity with their own personal learning device and Schoology (20 Learn) may facilitate a smooth transition to a quarantine or online environment. Student personal learning devices may only be used for educational purposes and with teacher permission per policy JICJ. Cell phones are not recommended as a personal learning device for learning. Although a smart phone allows students to be consumers of information, a smart phone is not the most educationally appropriate device to use in an instructional environment. A device with a keyboard is highly recommended for educational purposes at school. Cell phones are not permitted within the instructional environment.

Supply	Quantity	Description
